

Bring me back home

D (g) D
This empty desert goes for far too long

And every step i take is further from home

Through the wind i hear you call my name

I turn around and fell you runnin' my way

This is my story, this is my song

He brought me back where I belong

D C
And I lift my eyes and Your's meet mine

G D
And I Surrender to your Love

D C
My shame gives way to Amazing Grace

G C
You've Come, oh You've Come

D
To bring me back home

I filled my cup with every well I could find
But they left me dry and never satisfied
I couldn't see the error of my ways
Until you told me child turn your face

This is my story, this is my song

praising my savior all day long

hallelujah, I'm home
